91	92	93	94	95	96	97	98	99	100

### Adding and Subtracting numbers

Remember to keep the numbers in the place value columns! Always start with the units.

$$\begin{array}{r} 67 \\ - 56 \\ \hline 11 \end{array}$$

$$\begin{array}{r} 567 \\ + 199 \\ \hline 766 \end{array}$$

What is 10 more or 10 less than a given number?

What happens when I subtract 10 from 209?

How do you compare 2 numbers?

### Place value table

Put the digits in the correct column.

Why is it important to put numbers into the correct column on the place value grid?

How many different ways can you make 340?

Which number is greater? Which is smaller?

Thousands	Hundreds	Tens	Ones

Missing number problems, for example:

$56 - \underline{\quad} = 30$

$23 + \underline{\quad} = 34$

3, 5,   , 9, 11,   

### Multiplication

Multiply the units by the units (3 x 3)

Multiply your tens by the unit (2 x 3)

$$\begin{array}{r} 23 \\ \times 3 \\ \hline 79 \end{array}$$
